

RSCD — Replication of *Capitalism: Competition, Conflict, Crises* (Shaikh 2016) Methodology & Series Documentation

Anu Framework v12.0 — RSCD v1.2

2026-05-22

Overview

This document records the construction methodology for all 118 empirical data series replicating Anwar Shaikh’s *Capitalism* (Oxford University Press, 2016). Of 118 series, 109 are constructed and validated; 9 are documented extttdata_unavailable (source data behind paywalls/archives or chart-only — see each entry’s reason). All constructed series pass V03 validation at 1% tolerance against the author’s published values; extttanu-doctor project mode reports 0 failures / 0 warnings.
